F.No. 154(1)/23/HR/NSC

Dated: 30th October, 2023

Office Order (327)

In continuation of earlier Office Order No. 323 dated 28.10.2023 issued under file of even number, as per the directions of Competent Authority the following Committees have been constituted for the action plan and submit their report on the relevant purpose by the specified date as per the suggestions and recommendations made in the Report of the Committee to Study and Review the Functioning of the National Seeds Corporation Ltd. The Committees are as under:-

1. Setting up solar power system on the roof tops of seed stores and offices helps to reduce carbon footprints as well as the expenditure on electricity.

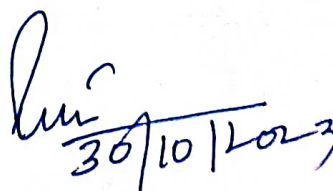

S.No.	Constitution of Committee	Scope of work	Report to be submitted by
1	HOD, Engg., NSC	To check the load bearing capacity / feasibility for solar power at roof top godowns and submit its report.	30.11.2023
2	RM's / HOF, NSC (respective RO / Farm)		
3	In-charge Engg. (respective RO/Farm)		

2. Seed Farms Facilities for Research Trials

S.No.	Constitution of Committee	Scope of work	Report to be submitted by
1	HOD, Prod., NSC	To examine the Seed Farms Facilities for Research Trials and submit its report.	03 months from date of this Order
2	HOF, NSC (respective Farm)		
3	In-charge Prod. Division (respective Farm)		

3. Seed Production Trials: Inducting new varieties in the seed program is a routine. In order to get a confident idea of the over-all performance and maximum seed yield potential of any new variety, it would be wise enough to organise Seed Production Trials [SPT] in various known /suitable seed production locations in one or two seasons. Such trials will also help in understanding the variety better and in standardising the seed crop husbandry practices. Also, having such SPTs seen / examined by the concerned experts/ scientists will add value to the activity and improve the technical competence in handling the product. In fact, an in-built system of periodical visits to the NSC's seed fields by the concerned Crop Scientists will help in adopting technically sound practices for quality seed production.

S.No.	Constitution of Committee	Scope of work	Report to be submitted by
1	HOD, Prod., NSC	To study the Seed Production Trials as mentioned above at S.No. 3 and submit its report.	31.12.2023
2	HOD, Mktg., NSC

4. Seed Imports: Following the announcement of the New Policy on Seed Development [NPSD] in 1988 Seed Imports were liberalised; and several seed imports were made by many in the Indian seed sector including NSC. However, this avenue has not been continued by NSC in the recent decade. Several superior products are available elsewhere too and many seed firms are taking advantage of the same. Opportunities exist for import of vegetable seeds, initially on trial basis, followed by bulk and market them on commercial scale. Therefore, NSC should revive the 'Seed Imports' activity to enhance its commercial performance through superior / promising products.

S.No.	Constitution of Committee	Scope of work	Report to be submitted by
1	HOD, Prod., NSC	To study Seed Import as mentioned above at S.No.4 and submit its report.	31.12.2023
