NOTICE FOR QUOTATION

National Seeds Corporation Ltd. is engaged in production and marketing of quality seeds throughout the country. Besides production of seed through our Registered Growers, we have got several agricultural farms also situated throughout the country where we undertake seed production of different crops. We have got one such farm at Hisar (Haryana) where we are having 2800 hectares of land which is used for producing agricultural seeds. The present collection of bio-degradable waste at Hisar is approximately 100 TPD.

We are interested to install a municipal solid waste management unit for production of compost. For perusal of Ministry and for execution of this work through a firm having experience in installation & running of this plant, we are required to prepare a detailed project report (DPR).

If you are interested for the same, kindly submit your offer by 04.09.2015 with your experience details in the field and expected amount for the work so that further decision may be taken in this regard by us.
